# Rheumatism Cured Through the Feet

**T**HAT a draft on the bottom of one's foot should be expected to cure rheumatism strikes the average person as an absurdity. Perhaps it is.

But if you can cure your rheumatic aches and pains by a piece of foolishness that costs only a trifle, the other fellow won't laugh more heartily than you.

If thousands of people from every state and kingdom on earth have been cured of rheumatism—of every kind and from whatever cause—by Magic Foot Drafts, can any prejudice exist in your mind to prevent your giving the remedy a fair trial?

When we first announced that Rheumatism could be positively cured through the feet by wearing Magic Foot Drafts, even our friends smiled the old smile of incredulity that has met the birth of every new great idea into the world. The idea was so simple—to cure Rheumatism wherever located, in joint or muscle, by drawing the Rheumatic poisons out of the whole system through the pores in the soles of the feet. But it was the discovery of Nature's way, whose lessons are always along the line of simplicity, and to-day Magic Foot Drafts are known all over the world as the safest, surest and simplest cure for all kinds of Rheumatism. They cure when everything else fails. Best of all, they cure to stay cured.

The fact is, **Magic Foot Drafts** are strictly scientific in principle—the most rational method of treatment they are

22501440562

ever  
evolved by  
medical  
research

eminently practical, because they cure nine cases out of ten, and the tenth man gets his money back.

The rheumatic sufferer faces this situation :—His or her system has become more or less clogged with rheumatic poisons—lithic acid, uric acid, lactic acid, or any other toxin, as the case may be. This poison must be either driven out or drawn out. Certain agents—salicylic acid, for example—will sometimes accomplish the former result ; but the system will then contain a poison even worse than the rheumatism. In fact, remedies which are strong enough to be effective against rheumatism almost invariably ruin the digestive organs. **Magic Foot Drafts**, as the name implies, draw the poisons out through the pores of the tender skin on the bottom of the feet. The Drafts absorb this poison. A pair should be worn only six days, as they become filled with the waste matter from the body, and need renewing in that length of time, if the case is a bad one. There is no electricity, no magnetism—nothing but a pure, harmless preparation of antiseptic and absorbent properties in these Drafts. Any one can apply them, and they are safe. It was the phenomenal success which attended their use in chronic and acute cases that led some leading business men to finance a company with the object of furnishing these wonderful blessings to humanity at a price within the reach of all.

## **The Source of Rheumatism**

is the presence of foreign substances in the system. Rheumatic pains are cries of protest and distress from tortured muscles, aching joints, and excited nerves. The system has been clogged by accumulation of waste matter, and the blood can no longer supply the pure and health-sustaining food required. The whole system feels the effect of the acid poison with which the body is burdened, and not until this deleterious matter is removed will the aches and pains cease. Lithic and uric acids, the residue of organic matter broken down in the katabolic processes of the human organism, and other compounds, such as acetic, lactic, hypuric, and hydrochloric acids, have a corrosive effect on the synovial membrane of the joints, producing intense pain.

The existence of these poisons in the system is due to imperfect performance of excretory functions, to pathological conditions over which the patient has no control, to malnutrition resulting from too indulgent habits of living, and to indiscreet exposure to dampness and cold.

Strong evidences of hereditary tendencies to rheumatism have been observed, and injury from accidents and bruises are, of course, responsible for a large number of cases.

Rheumatic pains are always aggravated by exposure, by undue physical exertion, and often by mental distress and excitement.

## **Rheumatism.**

**Kinds.** The Origin of Rheumatism antedates human history. The term is derived from the Greek word "rheumatismos" (liability to rheum, a humour or flux). It appears in three forms—Acute Articular, Chronic Articular, and Muscular—and causes the most excruciating pain to which human flesh is heir.

**Acute Articular Rheumatism** attacks the joints. It is characterised by severe pain, irregular fever, inflammation of the fibrous texture of the joints and profuse sweating. It often begins suddenly, spreading erratically from joint to joint. An attack lasts from one to six weeks or longer.

**Chronic Articular Rheumatism** is the result of one or more attacks of the Acute, and is characterised by a chronic inflammation of one or more joints with profound structural alteration.

**Muscular Rheumatism** attacks the muscles. It is characterised by tenderness and severe local pain, especially when attempt is made to use the affected muscle.

**Rheumatoid Arthritis.** We do not claim to cure this particular form of Rheumatism, but it will doubtless interest prospective patients to know that we have in the past afforded immense relief in cases of Rheumatoid Arthritis, and for this reason can unhesitatingly recommend the application of Magic Foot Drafts. Sufferers will soon be convinced of their therapeutic value.

### **Effect.**

The intense suffering connected with

Rheumatism is bad enough in itself, but the resulting deformity is worse. **Articular Rheumatism** produces permanent alterations in the joints. The joints

become swollen from effusive fluid; there is a thickening of the textures

resulting in stiffness, and sometimes complete immobility. **Muscular Rheumatism**, by shrinking and knotting the muscles, not only distorts the features of the face, but through tenderness, pain and stiffness in movements leads to great deformity of fingers and of limbs.

### **The Great Danger.**

As if suffering and deformity were not enough for the victim on the rack, there still confronts him the worst feature of Rheumatism—its fearful tendency toward complication—the chief danger being Rheumatism of the heart, which is generally fatal. So great is this tendency that medical science asserts that one-half of those suffering from Rheumatism for the first time have the pericardium (the membrane covering the heart), or the endocardium (the membrane lining the heart), or both affected.

### **Heart of the Child.**

Further investigation has revealed the terrible fact that the younger the patient the greater the liability of these complications, usually resulting in more or less permanent impairment of the heart's action.

### **Causes.**

The direct and indirect causes of Rheumatism are: an excess of uric acid (characteristic of urine), or lactic acid (characteristic of sour milk) in the blood; defective digestion: imperfect excretion of waste products from the system; chronic constipation which allows the mucous membrane of the intestines to absorb and send into the blood poisonous acids from the refuse matter retained in the bowels; a chill, from dampness or exposure, which specially

affects the muscular system, acting through the circulatory tissues, causing textural inflammation. A germ or the poison of malaria is also a possible cause. Cholera or Scarlet Fever are specially liable to be followed by Rheumatism.

**Who Suffer.** Persons run down by overwork or privation are most liable to attack; hence Rheumatism is more common among the poor, especially among those compelled to live or labour in cold or damp regions. The attacks come on through exposure to cold—getting wet—through excessive fatigue—overheating of the body, with a subsequent chill.

## Attempts at Cure.

**Experiments.** From time immemorial, with varying degrees of success, every race and age has had its wise men searching the earth for a cure. Blood-letting and Pow-wow-ing have had their day. Liniments have been offered. They have at times palliated, but their tendency is to drive Rheumatism from one part of the body to another—sometimes to the heart.

**Don't Drink Poison.** Drugs have been compounded which, while not curing, tend to ruin the stomach—the very foundation of health and life—thus intensifying the wretchedness of the sufferer. Internal Medicines contain poison. Their principle is: “It takes a rogue to catch a rogue.” But when he is not caught we have two rogues instead of one. The most effective internal medicine was discovered by the natives of South America, and is extensively used by physicians, but it is such a powerful poison that it should never be taken except under the direction of a skilful physician. (An overdose of a few grains may result in delirium, and possibly, insanity).

**Nature's Attempt.** Nature strives to protect and prolong life, attempting the cure of every ill. Nut galls on trees evidence her effort to expel the poison of the insect's sting. The fester on the finger is her way of driving out

the unwelcome splinter, or insect's poison. Lactic and Uric acids are the poisons to be got rid of in Rheumatism. Nature attempts the task : in severe attacks she uses the pores of the skin, and causes a profuse sweat. The quantity shows that she is hastening the expulsion of the uric acid, an important element of all sweat ; while its characteristic odour, being that of sour milk, proves that she is also expelling the lactic acid. This is Nature's way of handling the pores of the skin. Nature's way of doing things is always the best, and whatever treatment assists her most in **having her own way** is the true cure. Such a cure is the celebrated

## Magic Foot Draft,

which is a soothing yet powerful absorbent and antiseptic Draft placed on the hollow of the sole of the foot.

It is a strictly scientific external treatment for all kinds of Rheumatism. Being external it does not add poison to the system in the vain hope of driving another poison out. But following Nature's own suggestion, it **draws** the poisons from the whole body through the pores of the skin.

There is a scientific reason for placing the Draft on that particular spot—the centre of the sole of the foot. The hollow of the hand and the hollow of the foot are the origin and cure of numerous ills that are misunderstood. Being nerve centres, they contract disease ; being nerve centres, they expel disease. All they require is a chance to do one or the other. The philosophy of the **Foot Draft Cure for Rheumatism** will be made clear by illustrations as we examine into the structure of the

## Sole of the Foot

and its relation to the whole system.

## THE SKIN.

**Surface.** The skin is one of the three principal channels by which the body casts off impurities. Looking at the surface of the sole of the foot you will notice it is marked with ridges and furrows; that the skin is thinner and smoother on the centre; that the ridges are dotted with pores—the mouth of the sweat glands; that the pores on the centre of the sole are the **largest** in the whole body.

### PLATE I.

**THE SKIN, cross-section.**  
(Highly Magnified).

Those on the sole of the foot are the **largest** of the body, being from one two-hundredth to one one-hundredth of an inch high, and are arranged in ridges.

The Cutis is rich in blood vessels. Small arteries give off branches to the lobules of fat (F) in the subcutaneous Tissue, then penetrate the Cutis and form a network from which capillaries arise, which enter the Papillæ and form loops (E E) within them.

The Lymphatics (L) are a series of vein-like vessels following the course of the veins and running towards the heart. They take up the leakage from the blood

vascular system, the waste of the tissues, and whatever is absorbed through the skin, and pour them into the blood near the heart.

Branches both of the Spinal and certain Cranial Nerves enter the Cutis, and as they pass toward the Papillæ unite to form a network from which small branches (N) rise to enter the Papillæ and terminate in what is known as Touch Corpuscles (T), ovoid in form, in shape not unlike a minute fir cone. These corpuscles are more numerous on the sole of the foot than anywhere else on the body, the nearest approach being the palm of the hand. Hence the extreme sensitiveness of the sole of the foot.

In the Subcutaneous Tissues are fat lobules (F) and Sweat Glands (G.) These sweat glands are formed of coiled tubes that extend without walls from the gland through the Cutis and Cuticle, opening their mouths as pores (P) on the surface of the skin. These sweat glands are more numerous and free on the sole of the foot than anywhere else.

## PLATE II.

## SECTION OF SOLE OF FOOT

With Cuticle and Cutis removed. (Highly magnified).

This supplements Plate I and shows the different kinds of Papillæ in the sole of the foot, together with their blood-vessels and terminal vascular loops. A, B, C, D, E are compound papillæ containing one or more vascular loops ; F, F is a network of blood-vessels ; G, G, G, G, G, are vascular loops ; H. H. H shows the beginning of nerve-plexus under the papillæ ; while I. I. and J. K, are touch corpuscles with from two to four nerve fibres. There are about 75,000 of them to the square inch on the sole of the foot.

### PLATE III.

## SOLE OF THE FOOT WITH SKIN REMOVED

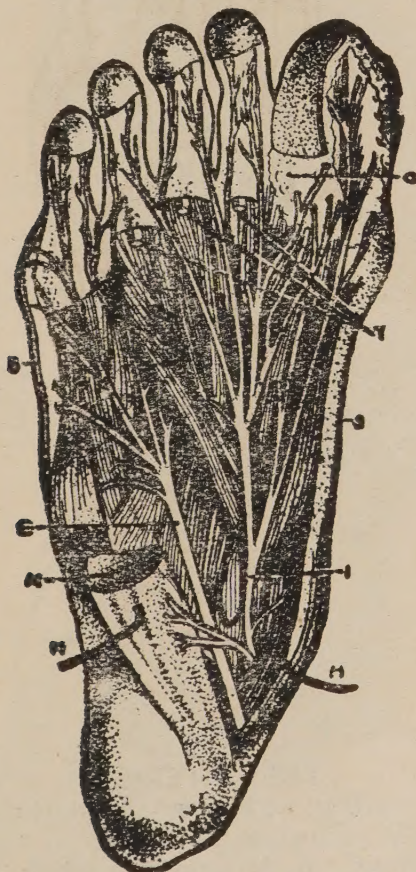

By removing the skin we have the appearance presented in Plate III. A dense layer of fat (F) composed of granulated masses runs along the outer and inner margin of the foot, forming elastic cushions (C) over the heel and balls of the great and little toes. These defend the parts from injurious pressure and jars. It is often three-fourths of an inch thick over the prominent bones. But it is lacking over the centre of the sole (P).

Besides a great number of veins there are numerous nerves (see white lines running through the layer of

fat). In the centre of the sole will be seen the tough triangular sheath (P) called the Plantar Fascia. It is of a glistening pearly white colour, is penetrated by nerves, lies next to the skin, and its use is to bind down the underlying muscles and deeper structures of the sole.

#### PLATE IV.

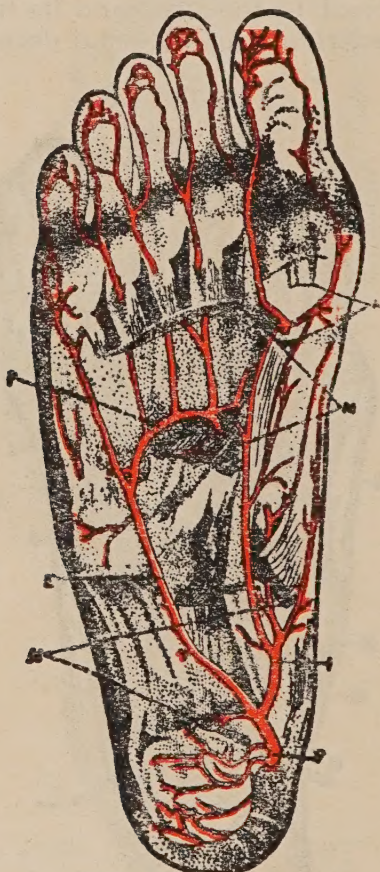

#### THE NERVES.

By removing the layer of fat (Plate III. F.C.), and the Plantar Fascia (P), we find four layers of muscles. If we divide and draw aside the first layer (Plate IV.. M), we have Plate IV., a great spreading of nerves—the Posterior Tibial Nerve dividing into two divisions: The External Plantar Nerve (E), and the Internal Plantar Nerve (I). Each of these divide and subdivide. The sole of the foot is thus made a great

nerve centre intimately connected with the whole nervous system.

### PLATE V.

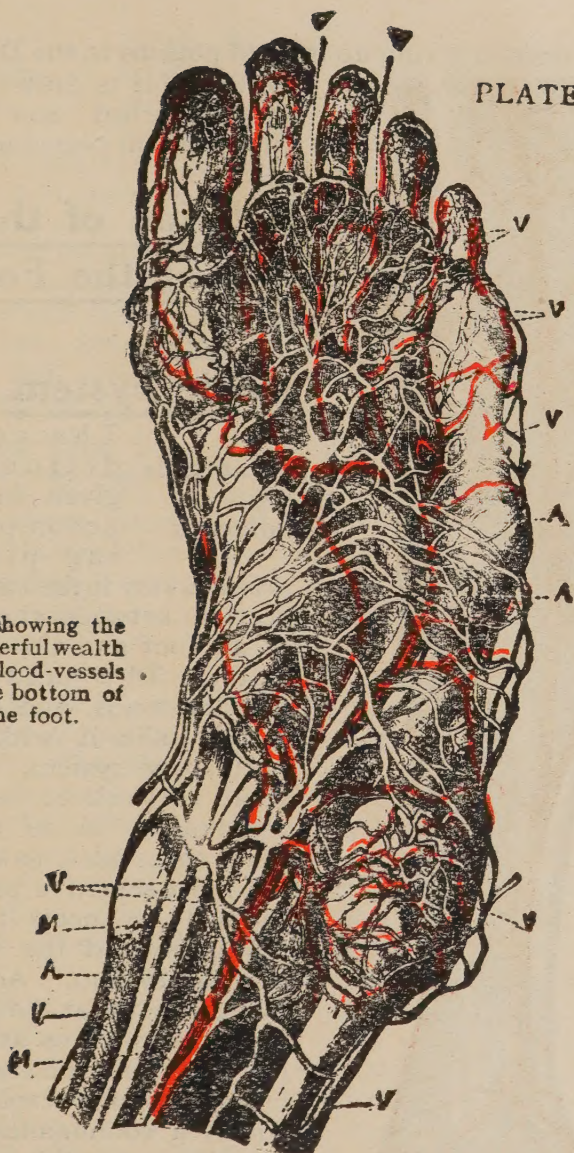

### THE ARTERIES.

Now by cutting away certain of the muscles we have Plate V., showing the system of arteries in the sole of the foot. M, M represent where the muscles have been cut. T shows where the Posterior Tibial artery enters, dividing into two branches: E, the Exterior Plantar, and I, the Internal. The Exterior is the larger and most important, and forms the famous Plantar Arch (P). It has eight branches, some of these sub-divided into as many as four. The Internal Plantar has five branches with sub-divisions. Thus the centre of the sole of the foot becomes a great centre for the arteries.

# PLATE VI.

Cut showing the wonderful wealth of blood-vessels in the bottom of the foot.

As Plate V. shows part of the system of arteries, so Plate VI. has been prepared to show the mass of veins in the sole of the foot. Only the skin and other tissues of a small fraction of an inch in thickness separate these blood vessels from Magic Foot Drafts when applied to cure Rheumatism. The pores—opened wide by the Drafts—furnish the channels by which these blood vessels are reached. All the blood in the body passes through these blood vessels every

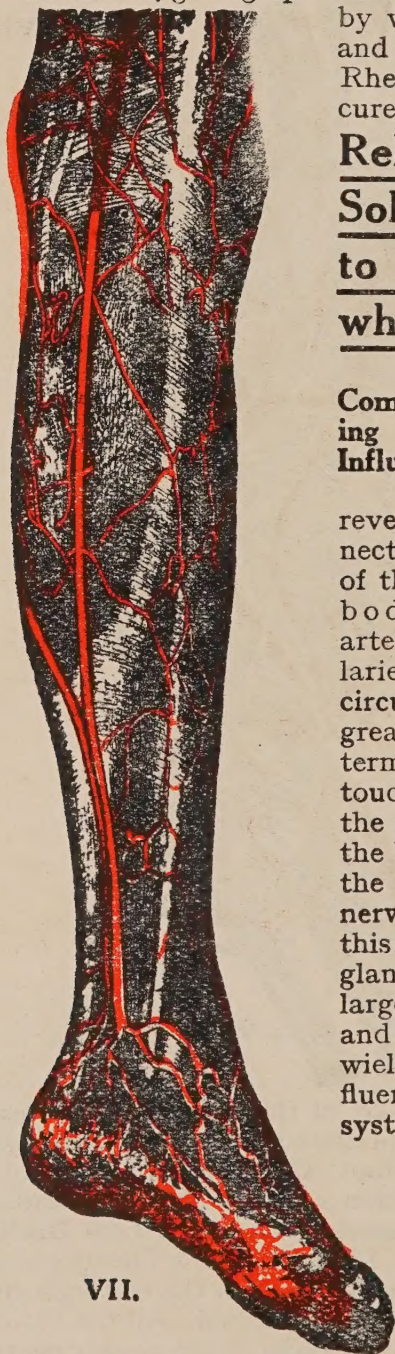

few moments, giving up its acid poisons to the Drafts by which it is drawn out and absorbed and the Rheumatism permanently cured.

## Relation of the Sole of the Foot to the whole System.

The conditions as given in the accompanying plates reveal a very intimate connection between the sole of the foot and the whole body. The mass of arteries, veins, and capillaries, links it with the circulatory system. The great network of nerves, terminating in so many touch corpuscles, making it the most sensitive part of the body, connects it with the brain and the whole nervous system. Add to this the fact that the sweat glands and pores are the largest and most numerous and we have a foot sole that wields a commanding influence over the whole system for weal or woe.

### PLATE VII.

Further illustrating how easily the entire blood supply of the body is cleansed through the sole of the foot.

VII.

## **Illustrations.**

Tickle the foot of a babe and it will laugh even unwillingly—the muscles of the face have been influenced. Tickle it often and it becomes a stuttering child—the muscles of speech have been influenced. Tickle it persistently, and it is said that insanity follows—the brain has been influenced. Again, if the foot gets wet and chilled a severe cold throughout the whole system results: if the foot be soaked in hot water the cold departs—the circulatory system has been influenced. Apply mercury to the sole of the foot and you are salivated—by cutaneous absorption the lymphatic system has been influenced.

## **Why the Foot Draft Cures**

Note PLATE I. The skin is a channel of excretion. The sweat glands (G) absorb from the blood and expel through the pores a sweat which under normal conditions is composed of water, nitrogen and some other substances in small quantities. Of the nitrogen excreted about 68 per cent. is in the form of the poison Urea, which causes Rheumatism. In severe attacks of Rheumatism, Nature increases the discharge of poisons by increasing the quantity of sweat. The Magic Foot Draft is placed over the thin and very sensitive skin at the centre of the sole of the foot where it covers an important nerve centre, veins and arteries as well as the largest touch corpuscles (Plate VII.) sweat glands and pores of the whole body. It begins immediately to act on all these, and effects a cure of Rheumatism in three ways:

### **Cured in Three Ways.**

First—It stimulates the nerves to activity. The nerves in turn act upon the muscles, veins and arteries, increasing the circulation of the blood, compelling it to hasten and deliver up its poisons from the whole system to the sweat glands just beneath the skin, and from thence it is drawn by the Draft through the pores and absorbed. Thus is effected a cure, no matter where the pain is located, because all the blood of the body passes through the capillaries.

Second—By cutaneous absorption curative elements are taken from the Draft. These are carried to the blood by the lymphatics (Plate I—L) and neutralize the acid poisons.

Third—Since in Rheumatism there is a lowering of the nutrition of the joints and tissues, the Draft by extracting the poisons in the blood, and by stirring up the sluggish circulation, sends richer blood through the veins, thus raising the nutrition of the joints and tissues, building them up, and effecting a cure. This is why the Magic Foot Draft cures Rheumatism—to stay cured. When the poison has been drawn out the cause of the pain has been removed.

## **Have you Rheumatism?**

There is a very great danger in delay. Not only will it distort the features and cripple for life, but the great tendency is toward Rheumatism of the heart. There is no time to be lost, and we cannot urge too strongly the necessity of immediate action. Beware of internal remedies. Don't drink poison. Remember the Foot Draft is thoroughly scientific and effectual. It cures when everything else fails. Apply Magic Foot Drafts at once. If yours is a bad case, get three pairs, for one cannot hold all the poisons which you have collected in your blood, therefore cannot completely cure you. Put them on and go on with your work, for the Drafts will not interfere with your business. However bad your case may be, if we cannot cure you, you can have your money back. (See our binding guarantee on page 24). One pair cures ordinary attacks, and usually relieves even the worst cases, producing a feeling of comfort which extends over the whole body ; but if yours is an aggravated case, get three pairs at the start, it will pay you.

## **The Price.**

Magic Foot Drafts are sent fresh from our laboratory—the day they are ordered—all over the world, at the uniform price of 3/- per pair ; three pairs for 9/-. Sold on a positive guarantee.

Foreign, 1/- extra for postage for three pairs ; 6d. for one pair. Postage Stamps not accepted for foreign orders.

Please send all remittances to  
**The MAGIC FOOT DRAFT CO. Ltd.,**  
Eauclaire House, Fleet Lane, LONDON, E.C.4.

# LETTERS OF PRAISE.

## Cured after using 4 Pairs of Foot Drafts.

17, Bond Street, Dudley,  
Worcester,

June 1st, 1928.

The Manageress

Magic Foot Draft Co. Ltd.

Dear Madam,

It has been my intention to write you long before this, to thank you for the Magic Foot Drafts.

My daughter suffered acutely for 16 weeks with an attack of Rheumatism, and could not turn over in bed. She became a perfect wreck and lost weight, but having completed your treatment, she is now able to walk about as well as ever.

Should this letter be of any use to you, you have my permission to publish it.

I shall recommend your Magic Foot Drafts whenever I can.

Yours gratefully, M. ARNOLD

## Read the marvellous results of one pair of Foot Drafts.

Dublin,

Dec. 1st, 1917.

Dear Sirs,

In answer to your letter I wish to state that your Foot Drafts have been of immense service to me. Previous to applying them I had been compelled to keep away from work for some weeks, but since wearing them I have been able to resume work—in fact I am a new man. My knee used to swell to a considerable size—often as big as a football—and it was impossible to bend my leg, but now all the swelling has gone, and your Drafts have made me so fit that I am able to walk over two miles to work every morning, and enjoy it. I shall always recommend you to sufferers from Rheumatism.

Yours faithfully, J. M.

**“Your Foot Drafts are invaluable. I am completely cured.”**

18, Curwen Terrace, Port Talbot,

Gentlemen,

November 5th, 1917.

Will you please accept my thanks for the complete cure your most wonderful Foot Drafts have established. It is a pity that so invaluable a remedy is not more widely known. I shall do my very best to make it known to all my friends.

Yours faithfully, WILLIAM DUMMER

1, Highland Cottages, Extons Road,

The Manageress,

Kings Lynn, Dec 7th, 1917.

The Magic Foot Draft Co. Ltd.

Dear Madam,—It is now three months since I applied the last pair of Foot Drafts I received from you, and I am pleased to say that I have had no return of the trouble, so that I feel quite safe in saying that I am completely cured. I shall be pleased to recommend you to all my friends, and thanking you once again for all your kindness.

Yours faithfully,

(Mrs.) S. M. PALMER.

## IS YOUR RHEUMATIC AFFECTION ACCOMPANIED BY SKIN TROUBLE?

Our **MAGIC REGULATORS** are a Splendid Blood Tonic.

### A Chronic Case of Rheumatism and Eczema completely cured.

Ivydene, Merrydale Avenue Newtown,  
Sir, Stockton-on-Tees, January 21st, 1918.

Your communication of the 19th to hand, and in reply I beg to state that your treatment has effected a complete cure. No doubt you would like a detailed account of the trouble, which attacked me in a very aggravated form. This illness commenced some seven years ago, with small boils on the back of my neck, eczema of the head and ears. My face and jaws had swollen to a tremendous size, and the doctor diagnosed the case as erysipelas. In addition I suffered from rheumatism in hips, arms, and legs. The treatment I obtained from herbalists made me decidedly worse. My doctor gave me medicine, but told me candidly that he could do nothing for me. I tried various so-called "cures" without deriving the least benefit, until I saw your advertisement in one of the papers. I was in bed with a bad attack of Rheumatism when your trial pair of Foot Drafts reached me. I applied them immediately, but was very much afraid, after wearing them for two days, that they, too, were going to be a failure. On the third day, however, I walked with less pain; on the fourth day the hard swellings in the leg became softer; the pains completely left my arms and legs, and I had nothing to remind me of any rheumatic trouble, except a little stiffness in the knees, which was soon remedied. Your Magic Regulators cleared my skin completely of all eruptions; my ears, which were in a very bad state, have healed up, and I feel sure it was uric acid in the system which caused the eczema to break out. In conclusion, I should like to point out that I am 65 years of age, and can now run like a boy. You have my full permission to print my letter in full if you wish it—make it as public as you like. Any person suffering as I have suffered will never regret giving your treatment a trial. With many thanks,

Yours truly, DAVID CATCHPOLE.

**"I was a complete wreck before trying your treatment,  
but its healing powers have given me new life."**

Tynninghame, Prestonkirk, Haddington,  
Gentlemen, January 21st, 1918.

In reply to your favour of recent date I beg to state that your Foot Drafts have completely cured me of a very chronic attack of rheumatism. Before applying your Drafts I was a complete wreck; my right leg was bent outward, and it was almost impossible for me to put one foot before the other—the pain was unbearable. I can assure you, however, that I can now walk and sit as well as ever I could, my step is straight and firm, and the acute pains have completely vanished. I had suffered in this way for over three years, during which time my own doctor had been treating me without affording any relief—I might as well have applied water. Your Foot Drafts have given me new life, and I shall not fail to recommend them whenever an opportunity presents itself. You are quite at liberty to publish my letter, and thanking you for all your treatment has done,

Yours very truly, RICHARD REID.

**"I have proved your Drafts to be all that you claim for them."**

Dear Sirs,  
42, Zetland Street,  
Southport, Dec. 9th, 1917.

In reply to your enquiry, I wish to state that I have proved your Drafts to be all that you claim for them. I cannot speak too highly of them, and they should be brought to the notice of every sufferer from rheumatism. You are at liberty to make use of any statement I have made. I am very thankful, indeed, that I tried your treatment, and I shall not fail to recommend it whenever I can.

Yours very sincerely, H. CLEGG.

**"I am now quite free from all pain, and can sleep well at night."**

Dear Sirs,  
Souldern, Banbury, Oxon,  
January 21st, 1918.

I am writing to say that your Magic Foot Drafts have completely cured me of Rheumatism, from which I had suffered for a very long time. I am quite free from all pain. I did not know what it was to have a good night's sleep before trying your remedy, but I can now sleep well. I have already recommended your Foot Drafts to other sufferers, and shall continue to do so.

Yours sincerely, O. TAYLOR.

**"Complete freedom from pain now makes work a pleasure."**

Dear Sir,  
Yeovil, Dec. 1st, 1917.

I reply to your letter of enquiry, making a special offer for a further supply of Drafts, I am pleased to write that it is not necessary to avail myself of same. I now enjoy complete freedom from pain. I rise each day at an early hour, and work is now a pleasure to me. Your Pills also did me a lot of good, for which I am thankful.

Yours truly, R. W.

**"I am recommending your Foot Drafts to all my friends."**

Gentlemen,  
Hove, Dec. 2nd, 1917.

I was on the point of writing you to tell you how greatly your treatment has helped me. I can now walk in complete comfort freely. The first pair afforded relief, and by continuing as recommended I am convinced a complete cure has been established. I am telling all my friends of the cure, and trust they will apply to you at once.

Yours gratefully, H. M.

Dear Sirs,  
Cork, Dec. 7th, 1917.

I received your Magic Foot Drafts, and think they are marvellous. I am entirely cured, and shall recommend them to all my friends.

Yours truly, J. M.

**"I have not felt so well for years."**

Dear Sir,  
19, Princes Street, Shildon,  
January 21st, 1918.

I am writing to let you know the excellent results of your treatment. Since wearing your Foot Drafts all the pain has gone from my knee joints, shoulder, and back. I can sleep and eat well, and have not enjoyed such good health for many winters. I am free from all discomfort and shall not fail to recommend your remedy to all my friends. You are quite at liberty to use my name.

Yours truly, WM. MAUGHAN.

**"I FEEL A NEW WOMAN."**

Gentlemen, 40, Holmesdale Road,  
Croydon.

I have now worn the last pair of Foot Drafts as per your instructions, and am pleased to inform you that I am completely cured. The Rheumatic Gout has entirely disappeared, and I feel a new woman. The cure is all the more wonderful seeing that I am seventy-two years of age. I must tell you that before commencing with the Drafts and Regulators, I could scarcely stand on my feet. I had to hobble about the best way I could. No sleep at night, and my health began to fail me. You are at liberty to make what use you think fit of this testimony, and I shall be pleased at any time, whenever opportunity arises, to recommend your treatment, or if anyone in the neighbourhood of Croydon thinks proper to call upon me, I shall be pleased to explain to them my wonderful and speedy cure.

I am, Sirs, yours respectfully, (Mrs.) J PENFOLD.

**Work with the greatest ease.**

Dear Sirs, 58, Westgate Road,  
Faversham, Kent

No doubt you have wondered at my not writing to you about Rheumatism, but I have waited to see the result of your Magic Foot Drafts. I am indeed pleased to say that I feel quite myself again, and can go to my work with the greatest of ease. My day's work now seems practically a pastime compared to when I was in such terrible agony. I think your Drafts are truly magic. You are at liberty to make what use you like of this statement, and again thanking you, I remain, truly yours, W. T SCOTT.

**Quite a different man now.**

Gentlemen, 21, Tower Street, Ulverston, Lancs.

In reply to your letter I wish to say that I have now worn four pairs of the Magic Foot Drafts with excellent results, being quite free from all pain now. Previously to wearing the Drafts I had been suffering from Rheumatism for some considerable time, and had been in bed over a fortnight with Muscular Rheumatism. Now I am quite a different man. The Regulators also are a splendid tonic, and I shall always have some by me.

Truly yours, F. PROCTER.

**Writing six months later, Mr. Procter says:—**

Dear Sirs,

I am most thankful to say that I have not had any return of the Rheumatic pains since I discontinued using your Drafts in March last, and I cannot speak too highly of them. Thanking you for what your treatment has done for me.

I remain, yours sincerely, F. PROCTER.

## **Cured after eight years' suffering.**

Gentlemen, 15. Victoria Road, Handsworth,  
Birmingham.

In reply to your letter, I am pleased to say that all the Rheumatic pains and Gout have left me, after using your famous Magic Foot Drafts. Your Regulators are also a sure cure for constipation, and will prove extremely beneficial to those suffering from the liver and kidneys. The cure is indeed a marvel, seeing that I have been suffering for the past eight years from Rheumatic Gout. I shall never hesitate to recommend your remedy to fellow-sufferers—Truly yours,  
(Mr.) J. JEAVONS.

### **Six months later Mr. Jeavons writes:—**

Dear Sirs,

Just a few lines to add to my last testimonial. I can still say that my Rheumatism is cured, thanks to the Magic Foot Drafts. Until I started using them I was unable to walk properly for pains and twinges in my feet, and now I can take a walk with comfort. I had tried a lot of remedies, both patent and otherwise, but can honestly say that your Magic Foot Drafts were the cure of my Rheumatism and Gout. I shall certainly recommend them to other sufferers from my old complaint, so that they may derive benefit from the same source as myself. Believe me to be,  
Sirs, yours faithfully, (Mr.) J. JEAVONS.

## **MARVELLOUS CURE.**

**No proper sleep for two months. Drafts give relief  
in three hours.**

Gentlemen, Seaton Lodge, Seaton Delaval.

I am in receipt of your letter, for which I thank you. As previously stated, the treatment was required for my daughter, who has been a terrible sufferer from Rheumatism for some considerable time. In November of last year she took to her bed, and her doctor and district nurse attended her every day. This went on for two months, getting worse every day. No sleep, no rest, crying continually, "Oh, the pain!" The doctor prescribed her complaint as that of Acute Muscular Rheumatism. God help the sufferers of Rheumatism! Well, sirs, seeing your advertisement and the offer you make, I wrote you at once, and got a direct reply with the treatment, and did according to your directions. I am delighted to say the Drafts gave relief in three hours, and then came the first sleep for about two months. The improvement in one week was very remarkable, and the friends who saw her a fortnight after the use of the Foot Drafts said "What a marvellous change." She is now able to do house work and walk a few miles. We all feel very highly satisfied with the cure your Foot Drafts have achieved. I hope I have not wearied you with this letter, but you may make whatever use you like of the same to certify that my daughter has been cured. With all good wishes, I remain, truly yours, (Mr.) J. R. FRAZER.

### **Cured from Sciatica.**

Burford House, Tenbury, Shrops.

The Magic Foot Draft Co. Ltd.

Gentlemen,—I have now finished the last treatment, and I think you will be pleased to know that I feel better after using your Magic Foot Drafts. I am very pleased to say that I can now walk and get about my duties quite well. I have had no return of the Sciatica, and I shall recommend the Drafts to others suffering from the same complaint. Thanking you for your kind attention to my enquiries, Believe me, very truly yours,

(Miss) A. DOVEY.

### **Cured Twelve Months Ago.**

Old Turnpike, Chiseldon, near Swindon.

The Magic Foot Draft Co. Ltd.

Dear Sirs,—I feel that I must write and thank you for your Foot Drafts, as they have done me such a wonderful lot of good. Before using your treatment I had the Rheumatics so badly that it was a misery to get about. I could scarcely walk with the pain in my feet and legs, and my feet were swollen very much. Then the pains went to my shoulders and arms, so that I could scarcely lift anything. I began to think that I should have to give up work, but I thought I would try your Foot Drafts as a last resort. Now I am glad to say that after using your treatment, I am quite cured, and this is more than twelve months ago, and I have not had a return of the Rheumatism since.

Believe me to remain,

Yours ever gratefully, J. COAK.

### **A good Report.**

3, Easton Buildings, Dipton, R.S.O., Durham.

The Magic Foot Draft Co. Ltd., London, E.C.

Gentlemen,—You will be pleased to hear a good report of your Foot Drafts, and I shall do all in my power to help you in your good cause. I can walk sharp now, and three months ago I could not walk or sleep without pain and misery. I feel like a young girl to what I used to. They have completely cured me, and if I hear of anyone who is troubled with Rheumatism I will recommend you to them. Thanking you for your prompt attention to my enquiries, Yours very truly, (Mrs.) J. HIGH.

### **Could not walk 120 yards without resting.**

Glenburn Hall, Jedburgh, N.B., Roxburgh.

The Magic Foot Draft Co. Ltd.

Dear Sirs,—Suffering from Rheumatism, I tried various remedies and medical advice which gave me relief for a short time, but very soon lost effect. I also tried various compounds which were recommended for Rheumatism, but all with no effect. I was forced to rest three times in walking from my house to my garden, which is only about 120 yards. I am glad to say that after using your treatment I could walk miles and not require a rest. I can now honestly say that I am cured and have no pain, thanks to your Magic Foot Drafts. Some people may think that this is untrue, but there are plenty here to testify as regards my statement. Wishing the Magic Foot Drafts every success.

I remain, Faithfully yours, R. FURNISS.

### **Completely Cured.**

42a, Market Street, Paddington, W.

Dear Sirs,

I have great pleasure in telling you that after using your treatment I have completely recovered from my Rheumatism. I have waited over two months to be sure they was no return. Before using your Foot Drafts I could not get about without assistance. I shall recommend them to all I know suffering from Rheumatism.

I am, yours faithfully, (Mrs.) N. G. JONES.

### **Writing eight months later, Mrs Jones says:—**

Dear Sirs,

In reply to your kind enquiry, I have to inform you that I was laid up for six months in 1901. In 1909 I was again laid up for three months, and at the end of 1911 I had another bad attack, which lasted up to March of the present year, at which time I sent for some of your Magic Foot Drafts, and after using four pairs I am pleased to say that the pains entirely left me, and I have not had a repetition since. The pains left me as if by magic, and now, eight months after using the last pair, I feel as well as I have ever done. I shall most certainly recommend them to anyone suffering from this malady, and again thanking you for your attention.

I remain, yours truly, N. G. JONES.

### **Good Proof.**

6, Water Lane, Stratford, E.

Dear Sirs,

It is with much pleasure I write these few lines that since wearing your Magic Foot Drafts, I have been entirely free from pain. I have suffered for several years with a sharp pain in my foot, which has sometimes caused me to almost drop in the street. You may guess how thankful I am, and am trusting that the cure is for good, I am on my feet from 6-30 a.m. to 11-30 p.m., and I think it is a proof that your Drafts are very good, and I shall always be pleased to recommend them.

Yours faithfully, (Mrs.) A. SMITH.

### **Four months later Mrs. Smith writes:—**

"In reply to your kind enquiry, I am very pleased to say that I have had no more trouble with my foot since I discontinued wearing your Drafts four months ago."

### **"Drafts have completely cured me."**

Invergowrie, Dundee,

Gentlemen,

Forfar.

I should have written you before, but I have been waiting to see if there was to be a return attack of the Rheumatic pains. I am indeed pleased to tell you that there are none, and that your Drafts have completely cured me. I can walk from morning until night and never feel the slightest twinge. I have been a sufferer for over twenty years, and can say to-day that I feel better than I ever have done before. You have my permission to use this letter in any way you think proper.

Yours truly, A. M. PRATT.

78, Stockwell Park Road, London, S.W.

July 10th, 1909.

I hereby certify that the "Magic Foot Drafts" have been rigorously analysed and practically tested in these Laboratories, the data obtained being of an entirely satisfactory character, and indicating them to be judicious and skilful inventions, and are extremely well suited for the purposes for which they are designed. "The Magic Foot Drafts" are unique remedies for all kinds of rheumatism, and possess properties which draw uric acid, etc., out through the pores of the skin on the bottom of the feet if used according to directions. They are the best, safest, surest, and simplest remedy for rheumatism. In conclusion, I consider them to be perfectly safe, reliable and effective remedies.

A. B. GRIFFITHS, Ph.D.,

Analytical and Consulting Chemist and Bacteriologist.

**Suffered for years, now permanently cured.**

Dear Sirs,

Enfield, Fulston, North Thoresby.

Mere words fail to express the benefit which I have derived from wearing Magic Foot Drafts. For years I have suffered with rheumatism, but now after being under your treatment all pain has vanished and am confident I am now perfectly cured. I will strongly recommend my friends to try your treatment.

Yours truly, (Mrs.) B. PENNELL.

**Walking now a pleasure,**

18a, Ebsworth Street

Dear Sirs,

Forest Hill, S.E.

It is with great pleasure I can testify to the splendid result of my six weeks trial of your Magic Foot Drafts. I am feeling a different man. The stiffness is all gone, and walking is now a pleasure. I have spoken to my friends about it, and wish your Foot Drafts every success. You may use this letter in any way you wish.

Yours ever gratefully, JAMES WOOLACOTT.
